### **EXAMINER'S AMENDMENT AND REASONS FOR ALLOWANCE**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Permission for this examiner's amendment was given by Mr. Charles Gross in the electronic communication dated 09/12/2006, where the applicant's representative authorized the examiner's amendment and stated that the proposed amendments were 'not intended to change the scope of the claim'. The application has been amended as follows:

permit the nozzles to be attached with dispensing tips oriented in the Y-axis direction or the X-axis direction, and to rotate the rotating mechanism about the rotation axis to align the dispensing mechanism in the Y-axis or X-axis direction to supply the first reagent or second reagent, respectively, to the attached dispensing tips. —

2. The following is an examiner's statement of reasons for allowance:

Claims 1-11 are allowable over the prior art, since the prior art fails to teach or fairly suggest a liquid handling system which includes a rotating mechanism that rotates a dispensing mechanism about a vertical rotation axis located at the center of the plurality of the dispensing cylinders and a controller configured to control the dispensing and rotating mechanisms such, as to permit the nozzles to be attached with dispensing tips oriented in the Y-axis direction or the X-axis direction and to dispense the first reagent through the tips oriented in the Y-axis direction , and the second reagent - through the tips oriented in the X-axis direction, respectively.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.
